

This sleek tubular model creates a minimalist feature for any urban interior. This radiator is very similar to the RT 25 but with 13mm tubes instead of 25mm. It comes in a vast range of sizes from a single product range and like the RT 25 it can be single or double tubes, mounted either vertically or horizontally . The RT 13 is available in a select range of colours, as well as chrome and nickel for the single version.
